PLAN OF ENGLAND TO CRUSH GERMANY

Financial Writer Insists Present War Is One of Trade

Jealousies.

SAYS BRITISH GRASPED CHANCE TO KILL RIVAL

New York, He Believes, Is Likely to Gain as German Banking Center.

The following statement was written for the Chamber of German-American Commerce by one of the foremost financlers of New York city, who acts as the most important foreign banking institutions. He prefers not to have his name mentioned for the present:

"The ultimate desire of England to drive Germany from the ranks of the nations that compete for the world's predomi and industry, is clearly shown in the proclamation of the British government to its banks and banking institutions, putting the great ban on German com-

"The English government prohibits banking dealings with firms having Ger

"Until further particulars of this pro-hibition have been received, it cannot be determined whether it applies only to firms having connections in Germany, their having even a single partner of citizenship in their organization

New York as a Center.

"The natural recourse of such firms will e to make New York instead of London the point of financial clearings and establish such connections as will permi inder the new federal reserve bank law drawing large bills of exchange in dollars instead of pounds sterling and acceptances of their bills from national banks organized under the new law of the United States now about to be established with special provisions to fa-cilitate the foreign trade in this country. Even such business establishments as have only one partner of German na-tionality are included in the ban of the English government. According to pri-vate cable received by one of New York's most influential financial men, who rep-resents interests that lie chiefly on the other side of the ocean, the proclamaother side of the ocean, the proclama-tion was published in the London Times. Only on account of the delay in mail transportation is the latest move of the

clined to justify the British attitude in the present war, sympathy for the Ger-mans—especially for those who are responsible for the eminent position that Germany achieved during the last five ong the commercial nations of the pioneers of German in-d commerce at the outposts of

Competition of Germany.

England, proud of its naval powers ne could compete, learned in the course of years hat it had to regard Germany as a competitor. It did not abstain from outdo its enemy, to damage its pres-

ige.

"In vain! Slowly but surely the German nation made its progress, established itself in the world's market.

"And now it has come to the issue.

"Any old cause was good enougn for England to go to war against its sworn enemy. But England is not satisfied with having its warships in arms against German warships. It is not satisfied to send its armies in coalition with those of its confederate against German soldiers. Its desire is to cripple and wreck Germany as a sea power, as a military factor, and in its most vital relations—its economic

in its most vital relations-its economic activities in the world, which naturally "The declaration of the moratorium and its far-reaching consequences for Ger-many were not generally understood in this country. The English moratorium was extended until October 4. That means that all banks suspended their collection business until that date. Only one who understands how closely erman commerce, especially in the oversea countries, is connected with banking institu merce, especially in the oversea cont-tries, is connected with banking institu-tions in England can realize the gravity of such a measure taken by the English government. To explain this means to reveal the history of the establishment and success of German commerce in for-eign countries.

German Trade Expansion.

"At first there were ships built by the Germans that went out to far scaports to reconnoiter, to learn conditions and if favorable to establish business connec tiens. As soon as the were established, invariably the opening of a German bank in the foreign country offered the merchants great possibilities. They could buy the raw material of this country and pay while the goods were being shipped to their destination in bills of acceptance. England, the great center of manufacture and industry, was the natural shipping place for this raw material, where they could dispose of it easily and to good advantage. German interests, representing this commercial development, realized this and once the country and interests, representing this commercial development, realized this and once the country and provided the country and pay while the great center of manufacture and industry, was the natural shipping place for this raw material, where they could dispose of it easily and to good advantage. German interests, representing this commercial development, realized this and once of the country and pay while the Associated Press, by way of Nauen and Sayville, L. L.).—According to official announcement made here today, Lieut. Gen. Prince Frederick of Saxe-Meininger was killed by a shell before. Namur. August 23.

No news of the situation on the east-fern and western fronts of Germany provided the country and pay while the great center of manufacture and industry, was the natural shipping place for this raw material, where they could dispose of it easily and to good advantage. German interests, representing the country and pay while the Associated Press, by way of Nauen and Sayville, L. L.).—According to official announcement made here today, Lieut. Gen. Prince Frederick of Saxe-five and Sayville, L. L.).—According to official announcement made here today, Lieut. Gen. Prince Frederick of Saxe-five and Sayville, L. Prince Frederick of Saxe-five and Sayville, L. L.).—According to official announcement mad London as a kind of clearing house on which the banks in the far seaports conto Gasellschaft and Die Dresdener
Bank. The bills of acceptance were payable ninety days after date. Before they
expired, the goods purchased in this manner had arrived, had been distributed
and made use of to manufacturers and
merchants and the notes taken up. After
the declaration of the moratorium and
the war on Germany these banks were
closed by the English government and
only the transaction of the liquidation
business continued under the supervision
of the eminent accountants for the English crown. All cash items received are
collected and the proceeds deposited in
the Bank of England. But checks and
drafts drawn against such cash remittances are being declined to be honored
'as by order of the English government.'

You were looking for a house Select your rented home with the same care that you would exercise in buying. You will be better satisfied, and so will your landlord, for he will have a permanent tenant.

There is one best place to look for the desirable vacant homes in Washington—that is, in the For Rent Houses columns on the classified pages of The Star.

Landlords select The Star for their rental offerings because Star Want Ads get best ten-

ain against Germany cannot be doubt that forbids English banks to transact business with all German institutions and business houses that represent even the slightest German commercial inter-

cest.

"This measure, which has no precedent in any of the previous wars of any nation, must show to the world and especially to those who are influenced against Germany's standpoint and its factics in the present war that England is not protecting a 'sacred and holy treaty.' It is not participating in the war drama for any other than the one selfish and for decades adhered to motive: to rid itself of Germany's competition in commerce, to make a last grand stand for its predominance' on the seas of the world."

TOURIST SHIP HALTED BY WARSHIPS AT SEA

Steamer Twice "Held Up" and Quizzed While Crossing the Ocean

As the Straits of Gibraltar were approached by the steamer Principe di Udine, which arrived in New York Monday with 490 American refugees from Genoa, Italy, there was intense excitement among the passengers, according to er and who have arrived here. The passengers had seen enough of guns and bayonets in Europe to realize that it was war time and they realized that the guns of Gibraltar and the ships in the straits were loaded for action. As the Udine passed into the narrowest part of the straits an apparently insignificant little craft, with small superstructure and a pigmy beside the ocean-going Udine was seen darting from the side of the channel toward the Udine.

With a tremendous burst of speed, the within twenty-five yards of her. A searchlight was suddenly turned on the Udine, her flags and her name were examined. After the commander of this little craft, now plainly seen to be a torpedo boat, examined the name of the Udine under the stern, the war vessel came alongside the big passenger boat.

Demand for Information.

"Where are you from?" was shoute through a megaphone from the little

"From Genoa," replied Capt. Tiscorni "Where are you going?" asked the

torpedo boat.

"To New York," was the reply from the Udine's bridge.

The torpedo boat's commander evidently expected to hear Rio de Janeiro or Buenos Aires, for the Udine usually ran to those ports. Again and again it was asked where the Udine was bound. Finally "New York" was understood.

Then her flash light was switched off and her prow was turned to her station beside the channel. But the searchlight of the forts of Gibraltar kept the Udine in their glare far into the night.

Friday, August 21, the Udine was again help up by a warship. When a steamer's smoke was discovered on the horizon to the north, the wireless of the Udine sought information as to the identity of the vessel. There was no response, but

the vessel. There was no response, but it was evident to those on the bridge that

Halted by Wireless Message.

Tell your captain to stop engines and await us," was the message that came by wireless in a few minutes

"Please, where are you bound from? What cargo have you and how many passengers?" was the next request of the English warship.

To which the Udine replied: "From Genoa to New York: 399 passengers, American citizens; little general merchandise. Steamer chartered by American consul general of United States government."

ment."
The armed cruiser was close to the Udine by that time and its commander could see its flags and its name and the line of passengers along the rails of the "You may proceed," wired the English commander. "Sorry to have delayed you.

Wish you pleasant passage."
"Thanks from Commander Tiscornia
and Dock Commissioner Smith of New York in charge of Americans returning home," flashed back the Udine.

The warship went off astern of the Udine, scouting for other vessels.

Among the American volunteers are many young men who have been studying in Paris. American girls waved their handkerchiefs and clapped their hands as the slender column of volunteers entered the station, while a crowd which filled the square outside cheered. Three troop trains will take the Americans, together with some other foreign volunteers, to the north.

SAYS ALL MAY BE CONTENT. Empress Augusta Victoria Thanks

God for Capture of Namur. . BERLIN, via Copenhagen and London August 26, 4:52 a.m.-Empress Augusta Victoria learned of the German capture of Namur by accident while making a visit. She was greatly moved and exclaimed:
"Thank God we may all be content! I have three of my sons with the army."

BY BRITAIN'S ACT

Ambassador Rustem Bey Declares His Government Needed Ships Seized.

CONSTANTINOPLE'S STAND IS NOT KNOWN TO HIM

Secretary Bryan Says Americans in Ottoman Empire Have Been Reported in Danger.

A. Rustem Bey, Turkish ambassador said today he was without information as to the stand his government will take in the European crisis, because of inter rupted com nunication.

"Turkish sentiment has been outraged," said the ambassador, "by the taking over by the British government of the two dreadnoughts just completed in English shipyards for the Turkish government. This action on the part of the British government was entirely unnecessary The British navy did not need the war ships and they meant everything to Tur key. The vessels had just been comple ed and were ready for their trials.'

No Advices From Capital.

The ambassador said he had received no advices from Constantinople since the outbreak of the war and had sent only one message, because he felt sure tha messages from and to Constantinople vould be intercepted. He conferred with Secretary Bryan, but declined to discuss

Secretary Bryan said reports had been eceived from time to time indicating that Americans might be in danger in furkey. At the Navy Department it was said that as yet no requests had been eccived to send American warships into Turkish waters. Such action was taker during the first Balkan war, when alarmng reports reached Washington of threatened massacre of Christians.

U. S. Is Watching Turkey. American missionaries, Ambassador Morganthau has been making long reports on the situation, and for a time—a week ago—the situation seemed alarming.

The governor of one of the Turkish provinces had threatened massacre to Americans if Turkey and Great Britain went to war. Mr. Morganthau immediately discussed the subject with the Turkish foreign office and received assurances that if any subordinate officials had made such threats they would be censured and that if any subordinate officials had made such threats they would be censured and that Americans would be accorded respect and courteey in any eventuality. For a time the Washington government had under consideration a suggestion from Ambassador Morganthau that a Britain. France and Russia a satisfect, but on the receipt of reassuring advices from him the idea was abandoned and officials here now declare there is no cause for alarm.

Two Cruisers Nearby. The cruisers North Carolina and Tennission of relief, would be available in emergencies to bring Americans "Please give us your name," was the next message to the Udine. "We are English warship."

The Udine replied: "Message received. I am stopped." And the name was furnished.

And the name was furnished.

The critical problem, however, rapidly being solved by the American government's beard of the critical problem. culty is in cashing letters of credit—a problem, however, rapidly being solved by the American government's board of relief. The cruiser North Carolina prob-ably will visit Turkey and other countries of southern Europe with gold for Amer-

icans.

An acute situation has arisen in the Balkan states over the possible entry of Turkey into the European war, according to official advices to the American government from various various 3

Sources.

Turkey has not yet given Great Britain, France and Eussia a satisfactory explanation of the entry into the Dardanelles of the German cruisers Goeben and Breslau. When it was first reported that Turkey had purchased these vessals, Great Britain, France and Russia demanded that the crews of the two ships be repatriated immediately. Dispatches revealed that German crews were still aboard the cruisers.

Italy Would Engage in War.

Many Washington diplomats familiar with the situation consider it practically certain that should Turkey side Germany and Austria, Italy would abandon her position of neu-trality and join Great Britain, France, trality and join Great Britain, France, Russia and Servia, who could count also on the assistance of Greece.

Greece is under martial law with its army mobilized along the frontiers watching Turkey's movements. The troops of the Ottoman empire are quietly mobilizing without public orders to that effect.

Italy's order for mobilization August 27 is believed here to be due to some extent to Turkey's military activity.

Officials here were surprised to hear reports that the Austrian government had ordered the Austrian cruiser

had ordered the Austrian cruiser Kaiserin Elizabeth to join the German

Lieut. Gen. Prince Frederick of Saxet Meininger was killed by a shell before Namur. August 23.

No news of the situation on the eastern and western fronts of Germany has been given out today.

The above dispatch evidently clears up the reports published yesterday and today that an uncle of Emperor William had been killed in battle. The identity of the German nobleman who has lost his life up to the receipt of this dispatch from Berlin, had been uncertain. One report from Paris said he was presumed to be Prince Albert of the cruiser to dismantle her and to proceed to Shanghai.

This instruction follewed negotiations at Tokio between the Austrian ambassador and the Japanese foreign office, and when the agreement was reached to dismantle the Kaiserin Elizabeth it was said at Tokio that danger of war between Japan and Austria had been removed.

Neither nation has advised the Washington goyernment of a change in the situation.

TÜRKS' NEUTRALITY PLEASES.

Representative of Bengal Moslems Congratulates Grand Vizier. CALCUTTA, via London, August 26

(9:20 a.m.).—A representative of the Bengal Moslems has telegraphed the grand vizier at Constantinople offering congratulations to his imperial majesty on the occasion of the feast of Bairam and expressing gratification at Turkey's neutrality and British assurance of Turneutrality and British assurance of Tur-key's integrity. He adds: "Indian Moslems, who consider loyalty to the British crown their first para-mount duty, would greatly deplore any estrangement between England and Tur-

HIS WAR ON CARRANZA

Sonora Governor Declares He Will Turn Over Office Only to Duly Elected Successor.

tion of a large resident British colony.

"Owing to the disinterested position of the United States, I have been able to render services, for which I have been thanked by the German commanding general, by representatives of the resident British colony, by the interparliamentary union and by an official of the Belgian foreign office on behalf of the king. As I reported to the department, the Spanish minister and I made representations to the burgomaster, before the occupation of Brussels, which, in connection with other considerations, led him to abandon his intentions of attempting a futile defense of the city, which might have brought on a bombardment, with all its terrible consequences. -Jose Maria Maytorena, governor of Sonora, announced today that he had come ernment," Maytorena is supported by Gen. Francisco Villa. Those whom he proposes to war against have the support of Carranza.

Maytorena, in a signed statement, declared his movement was decided upon when Carranza after having banished supporters of the governor ignored his protests and demanded his resignation. "I have no political ambition," Maytorena concluded. "My only wish is to serve my country and I will gladly turn my office over to a duly elected successor—in 1915."

Maytorena Ignores Hill.

DOUGLAS, Ariz., August 26 .- Maytorena ignored several attempts made by Gen. Benjamin Hill to get into communication with him yesterday. Hill, who was sent into Sonora by Gen. Obregon thereupon wired Maytorena at Nogales a warning not to take the field. Hill officially assumed command of the constitutionalist military forces in the

state. Col. Elias Calles, leader of the op-position to Maytorena, is with him and will remain until the arrival of Gens. Villa and Obregon from Chihuahua.
